ABOUT US <<

WE BRING SOLUTIONS FOR THE REAL WORLD

Just about anyone you know can give you the name of a business consultant. We're well aware that we're not alone in our field, but we are unique. We're unique because the advisors on our team have real world, live experience in addition to advanced degrees and certifications. They've experienced that pit in the stomach that says "we're in trouble." They've had their backs against the wall, and learned how to fight and claw their way out of confusion with tools and behaviors that have proven solid over time. They've learned what really works. We're unique because we don't give you an insurmountable mountain of academic rhetoric or platitudes from the business fad of the month. We share our in-the-trenches experiences and expertise, to help you avoid the mistakes we've seen others make repeatedly.

We're unique because we don't give advice on areas in which we are not experts. If you face a challenge that needs a different type of expertise than ours, we'll tell you straight out, and help you locate qualified people who can help. We're unique in that we don't work with everyone. We won't take your money if we're not certain we can help your business. If we can't help you, we'll tell you so and explain why. Just about anyone you know can give you the name of a business consultant, but if you want help from people who've been in your shoes - people that can truly help you, people that can help you get real results - call us . . .
